Social SEO

using social media to show up in AI search

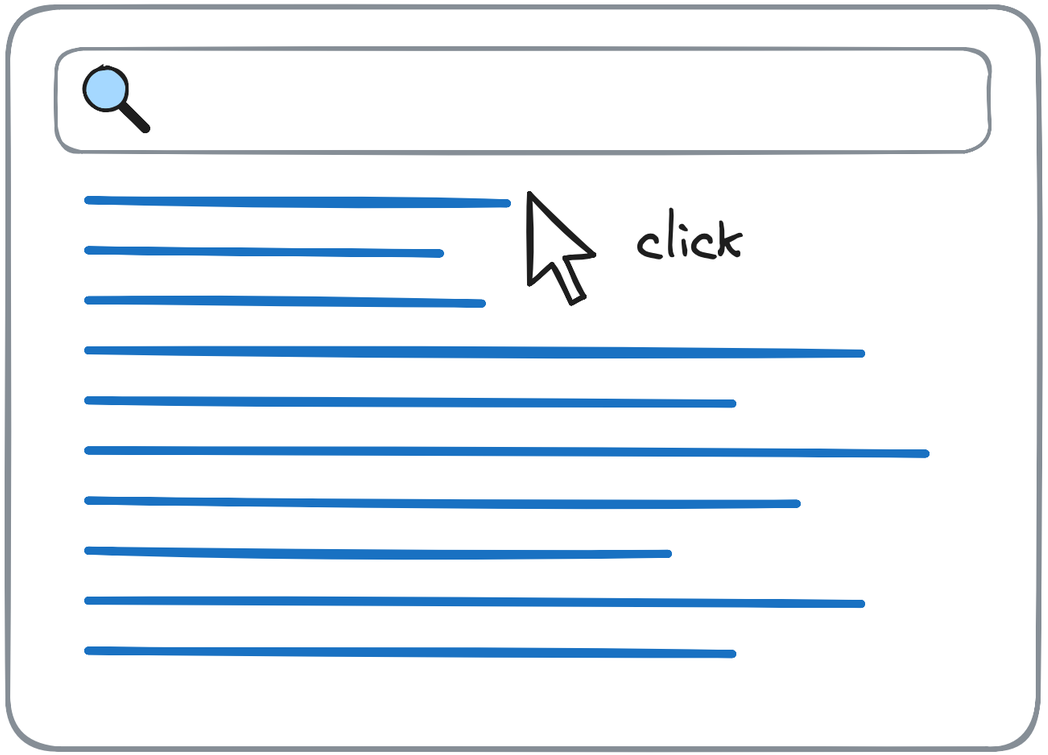

Ajay Jagtap · Oct 8, 2026

02

Search is fragmented

earlier

10 blue links. You click.

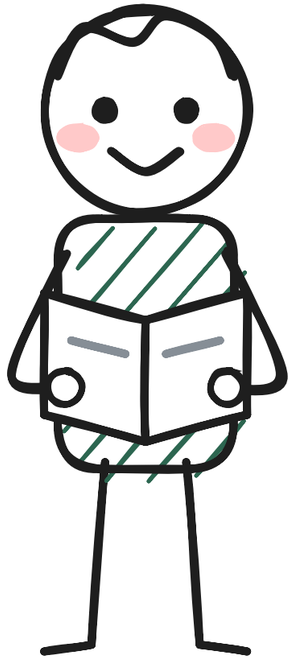

now

You ask AI. It answers.

03

Let's ask Google two questions

a question from your category

a brand name: Jira, ClickUp

04

Your brand name
isn't yours anymore

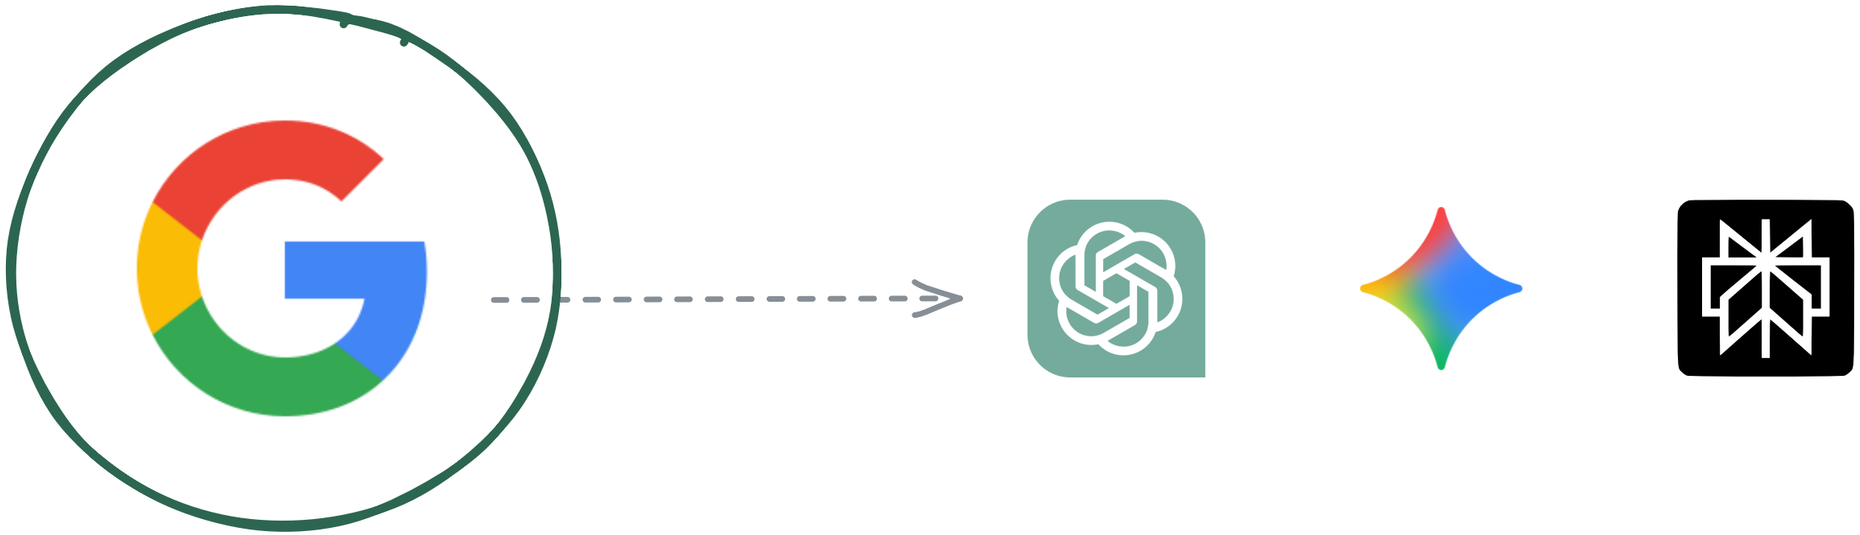

83%

of US branded searches
show an AI Overview

Ahrefs (Ryan Law), Oct 2026

Start with AI Overviews

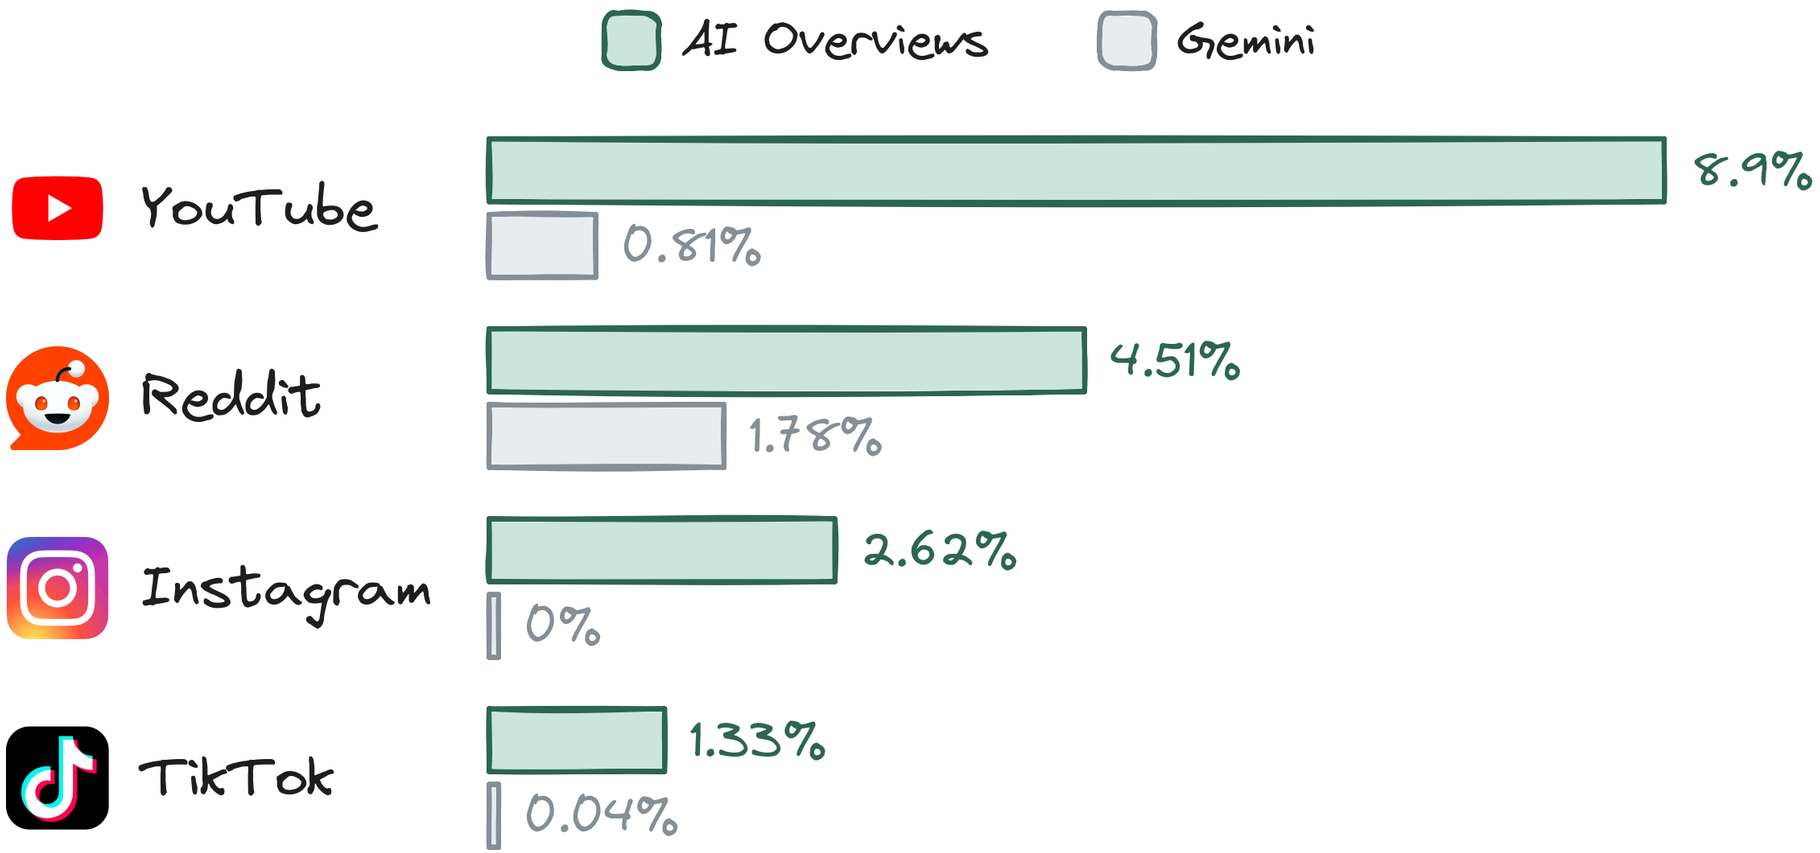

It's the AI answer your customers already see in Google.

start here

then these

AI Overviews cite social 7.5× more than Gemini

share of citations · Track My Visibility study, 383,188 citations

My videos in Google and AI Overviews

best business plan software	category
bizplanr review	a brand
track my visibility review	our product

Short-form counts too

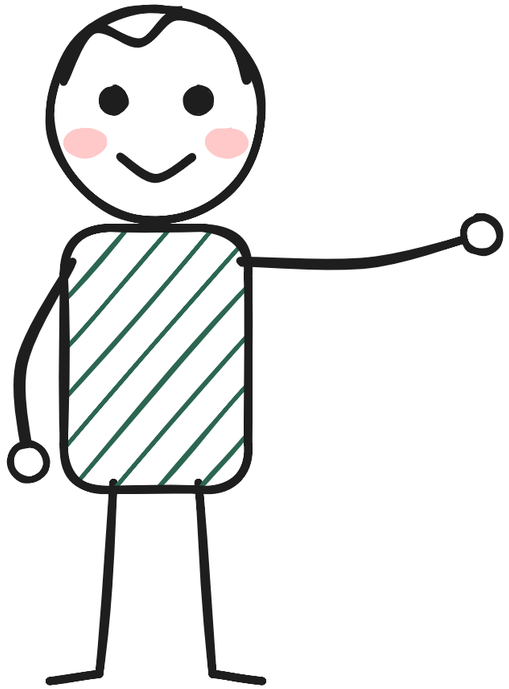

Even a short with few views is a signal you're an authority.

Reels

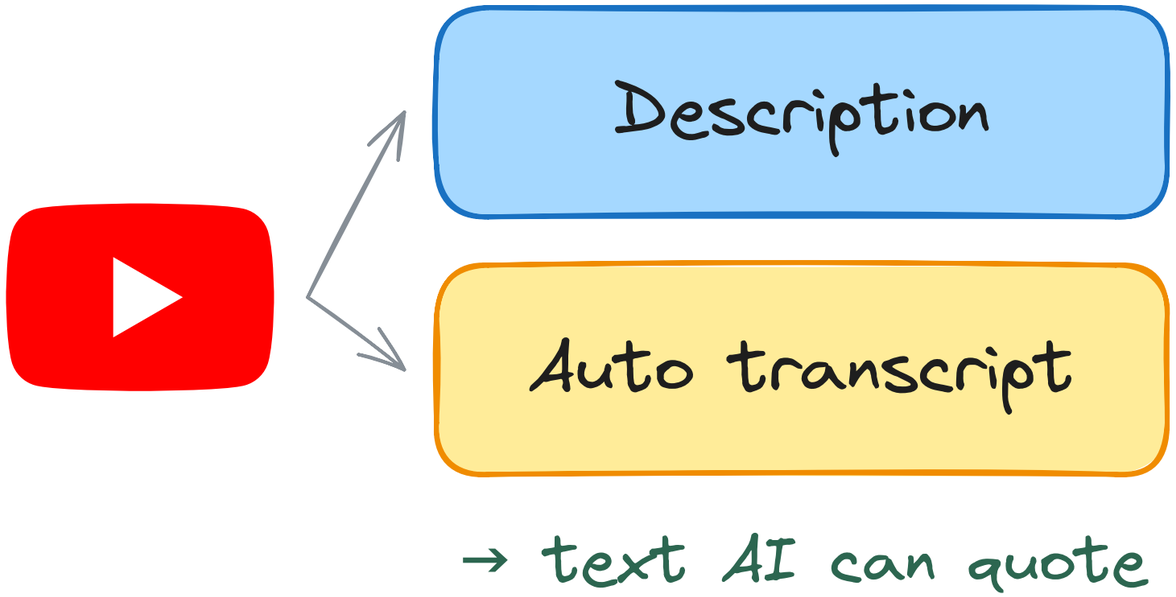

Facebook videos

YouTube Shorts

You don't control what AI says about you. You control what evidence exists.

AI can read your videos

Five things to fix on every video

- [x] **The exact question** in the title + description
- [x] **Keywords** in a proper description
- [x] **Keywords in captions** instead of hashtags
- [x] **Fix the transcript** brand names, key terms
- [x] **A/B test titles** on YouTube

Search Console now takes YouTube, Instagram, TikTok and X. Add them.

How to find what to make

tmv. Track My Visibility

tracked prompts → Sources tab → filter by YouTube

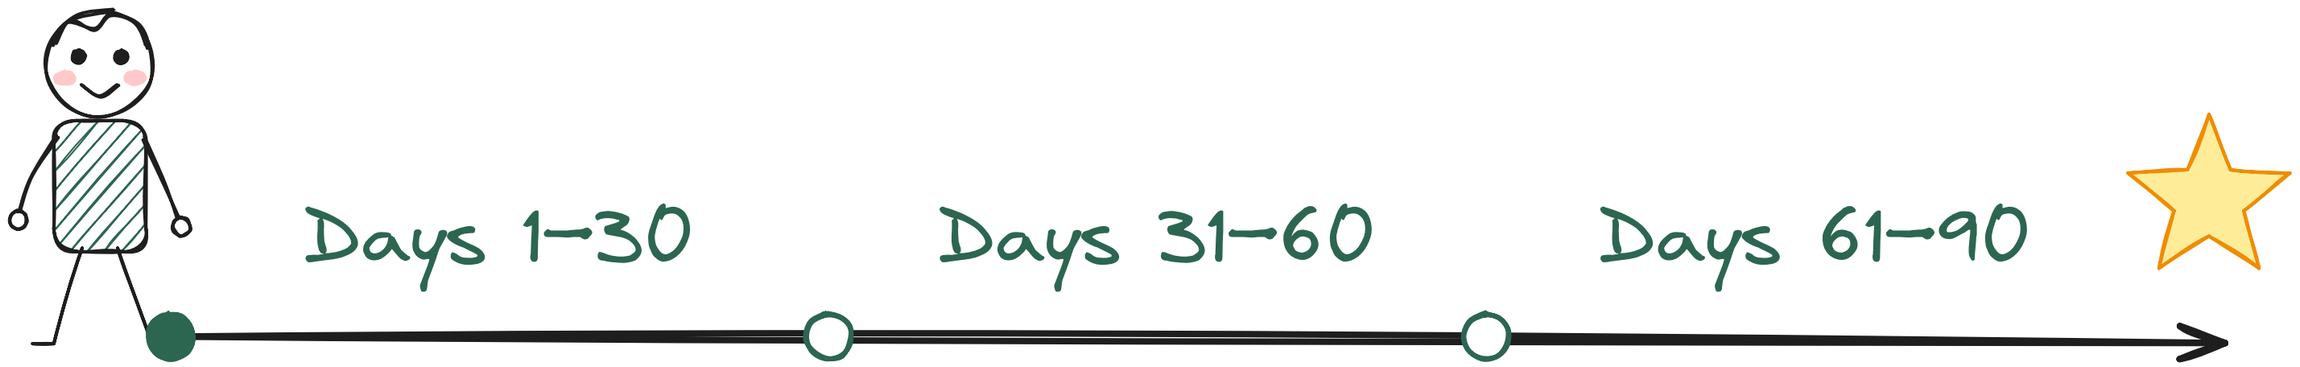

or

The free way

search your questions → look at the cited videos → make a better one

The 90-day playbook

find which channel gets cited in your niche

make the better version + clips

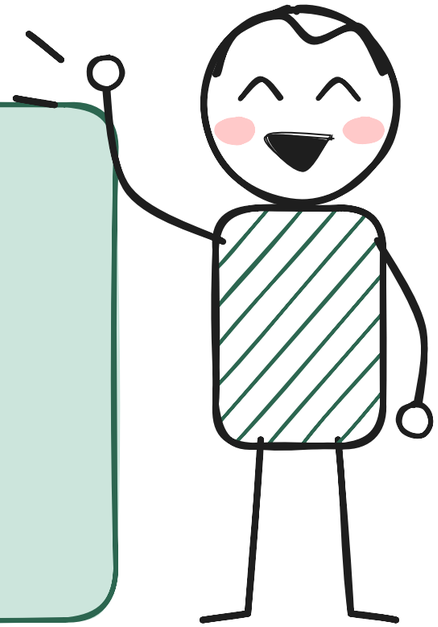

re-check citations, double down

the metric to watch: citations, not views

Do that for 90 days.
AI will know who you are.

this week:

Pick 10 questions. Search them. See who's cited. Make something better.

Thank you.
