We studied *7,497 ChatGPT ads* so you don't have to

(here are the 6 findings)

1

63 brand questions.
0 ads from the brand.

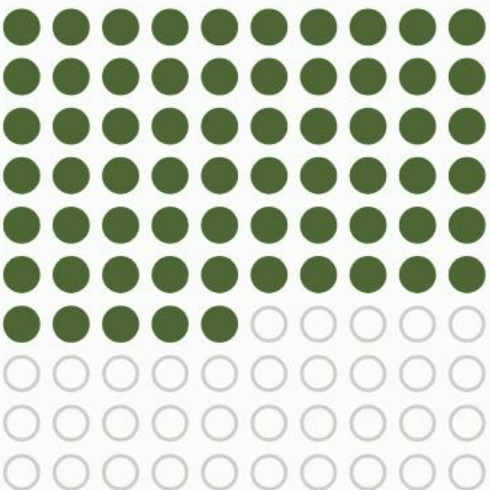

● 180 ads, all from 94 other companies

○ 0 from the brand in the question

2

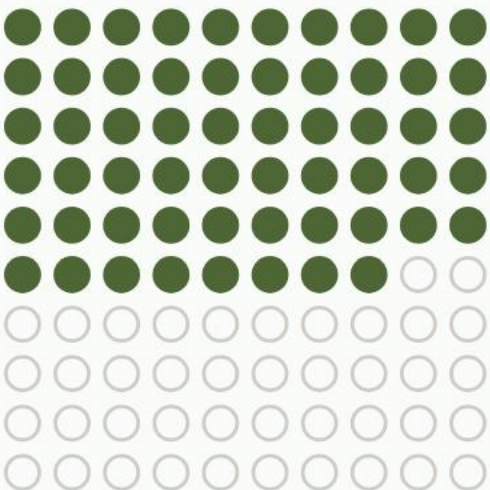

The room is close to empty

Questions

- 65.1% had ads from just 1 advertiser

Advertisers

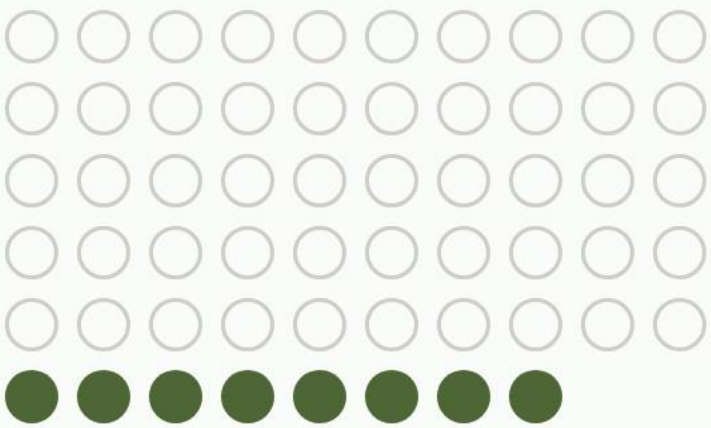

- 57.7% showed up on just 1 question

3

Local questions, no local ads

India, Australia, NZ, UAE

- 50 of 58 (86.2%): no advertiser from that market
- 8 had a local one

4

How-to questions get ads too

Ads per question:

3.92

"how does it work?"

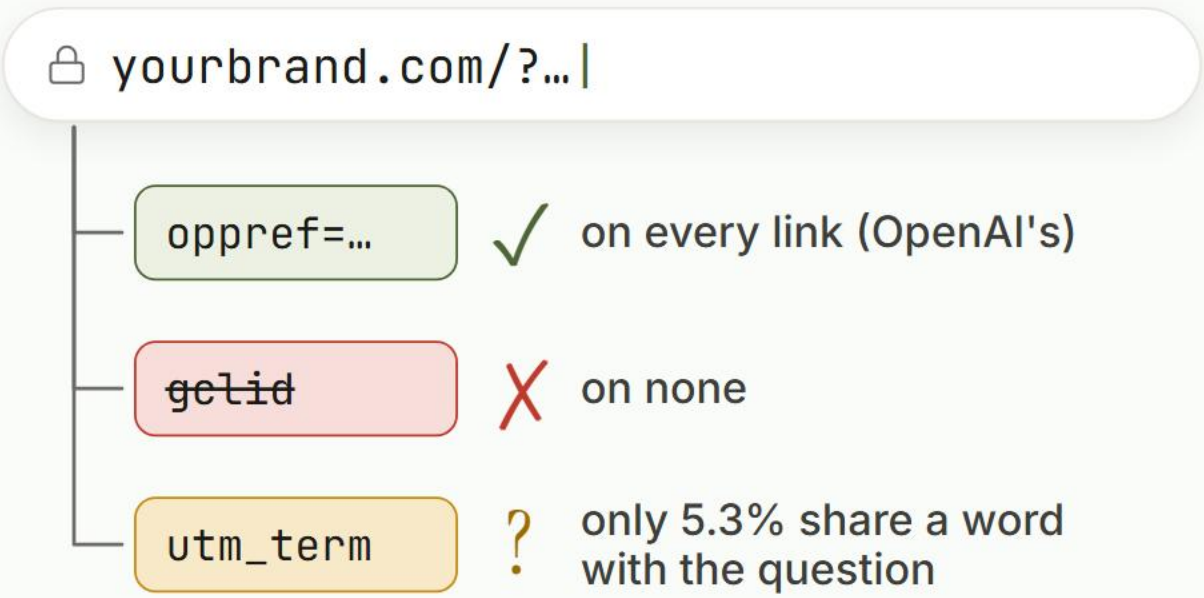

3.43

"where do I buy?"

5

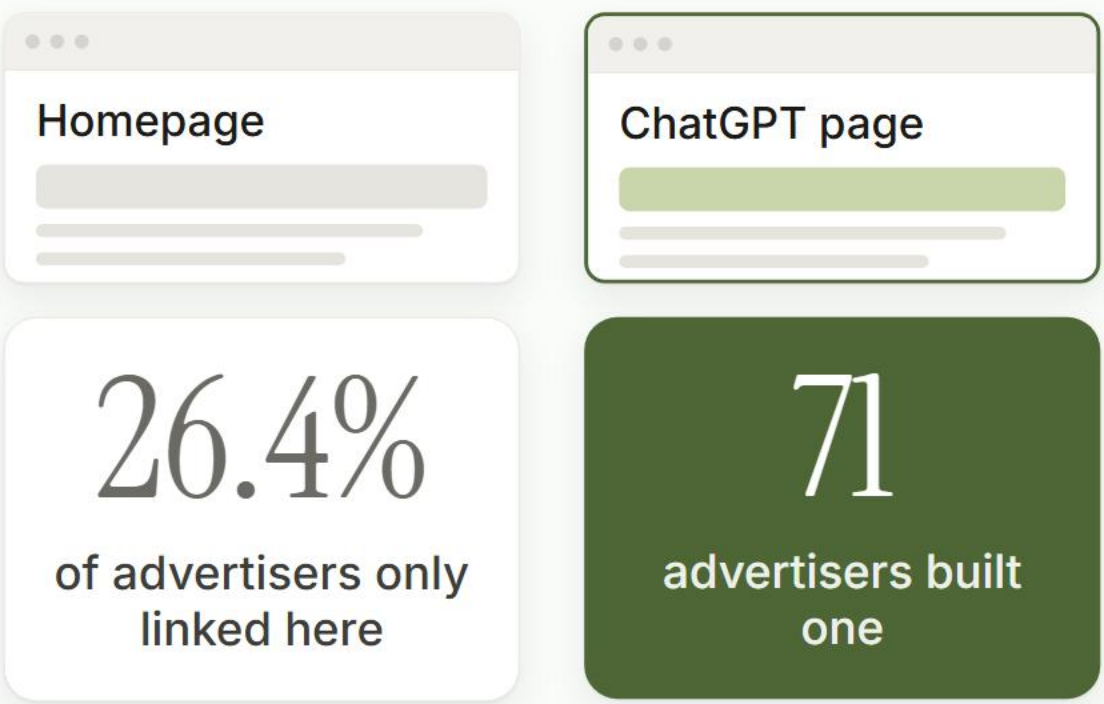

Your tracking won't see it

Check it before you scale.

6

Few built a page for ChatGPT

What it means for you

You run ads

it's early, fix tracking first

You don't

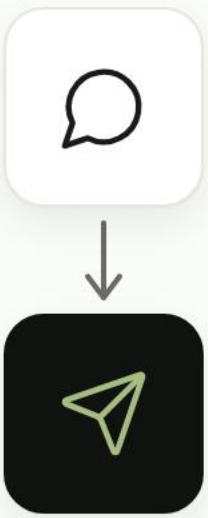

rivals can show up on your name

You track AI visibility

treat paid and organic separately
